

# ASSEMBLY

All P<sup>2</sup> PICKERS are packed complete with all components and parts. Before assembly check that all parts are accounted for. Contact us immediately if anything is missing.

## **Tools needed: ½" Wrench/Socket**

1. Start with CENTER FRAME - remove the 8 bolts at rear of center triangle.
2. Fold out LEFT & RIGHT arms.
3. Replace bolts and tighten.

## **Mounting the PUSH FRAME (H-Bar):**

1. LINE UP to back of CENTER FRAME and INSERT
2. Insert PUSH BAR PINS
3. Secure with LYNCH PINS

## **Installing PICKER SECTIONS:**

1. Position SECTIONS at END of each ARM
2. Position U-JOINT in UPRIGHT position
3. SLIDE arm assembly onto U-JOINT and secure with PIN. REPEAT with remaining gangs.

Your P<sup>2</sup> Picker is now completely assembled and ready to connect to drive vehicle.

## **Attaching to VEHICLE:**

1. PULL vehicle UP to within a few inches from PUSH FRAME.
2. INSERT BOLT on cart BRACKET through the hole on MOUNT BAR/PUSH FRAME.
3. SECURE with LYNCH PIN.

**Your P<sup>2</sup> Picker is now completely assembled and ready for use.**
